CAMRY HYBRID i-TECH IN MAGNETIC BRONZE

## THE NEW GENERATION CAMRY HYBRID

We believe the world can change, but that doesn't mean you have to sacrifice your focus on quality and performance. The new Camry Hybrid affords you the opportunity to both enhance your driving experience and the environment. That is the promise inherent in one of the most exciting Hybrid vehicles in the market.

Our world is changing, and Camry Hybrid allows you to keep pace. Whether your drive is taking you to the meeting or the market, the boardroom or the beach, the bright lights of the city or the warm lights of home, this is the smart solution for the executives of life.

## ENJOY A TRULY SPECTACULAR DRIVING EXPERIENCE

Defy conventional wisdom with a true Hybrid vehicle that provides class leading fuel efficiency with surprisingly powerful and smooth acceleration – 0-100km/h in 8.0 seconds - when you need it most. Camry Hybrid makes the most of advanced technology to extract more power and torque from its 2.5 litre engine, delivering 151kW of total petrol and electric motor power while providing an integrated system of fuel and emission-saving measures.

The Camry Hybrid designers have created a masterful drive mode switch feature for even greater efficiency. ECO mode optimises the Camry Hybrid engine, electric motor and air conditioning to reduce fuel consumption, while EV drive mode switches power to the electric motor for short duration city speed driving that gives the quietest, emissions-free drive you can experience.

And there's more. Only a full Hybrid system can deliver an Electronically Controlled Braking (ECB) system that regenerates energy as it works and a unique transmission that delivers seamless acceleration without shift shock. And then there's the feeling of stability inherent in Camry Hybrid's front and rear suspension technology that gives you complete control, no matter what direction you want to head in.

## BEING GOOD WHILE LOOKING GREAT

Camry Hybrid and Camry Hybrid i-Tech have adopted a low-profile design sensibility that is as invigorating to look at as it is to drive. With subtle styling enhancements added to the highly successful Camry, the new Camry Hybrid models have a sleek, energetic appearance befitting the cutting edge technology underneath.

In keeping with Camry Hybrid's fuel efficient promise, every aspect of the exterior design has been refined with performance in mind. Aero-corners front and rear add to the aesthetic while reducing vehicle drag, while the overall effect of the design gives a greater impression of forward momentum, complete with an integrated headlamp system that perfectly enhances the sense of style Camry Hybrid offers. We believe all great design is design with purpose, and Camry Hybrid is the perfect encapsulation.

Fuel consumption

FOR EXECUTIVES OF LIFE

## BREATHE EASY OUTSIDE, FEEL EASY INSIDE

Camry Hybrid takes quietness to a whole new level, with sound suppression technology that greatly reduces engine room noise for a smooth and peaceful driving experience. Step inside the spacious interior and you'll be elevated to a new level of saloon comfort. Seat positions have been carefully and purposefully re-designed for added comfort - more leg room and exceptional ergonomics, and enhanced pedal and instrumentation positioning for a more intuitive driving experience.

If comfort is important, so are the additional luxuries.

The Camry Hybrid i-Tech features a surround sound 10-speaker audio and entertainment system, along with full MP3 and Bluetooth functionality for hands-free phone and audio streaming capability. In the Camry Hybrid i-Tech the 7" TFT touchscreen display and Sat Nav system place the world at your fingertips.

Camry Hybrid comes complete with 6.1" touchscreen display with full air conditioning and vehicle settings display. Everything about the Camry Hybrid and Camry Hybrid i-Tech interior has been created to offer a sense of space and refinement. Who ever said you can't have it all?

## MAKE YOUR NEXT MOVE, WE'VE GOT YOU COVERED.

No matter where you have to be, it's important you arrive safely. So our engineers were set the task of designing a vehicle to meet the demands of all drivers. Vehicle Stability Control (VSC) has been continued in both Camry Hybrid models while the Camry Hybrid i-Tech is complemented by Blind Spot Monitoring (BSM) and auto high beam function for one less thing to worry about. Drivers of both Camry Hybrid models will enjoy reversing assistance and piece of mind from the rear view camera with backing guide.

Collision safety technology has been incorporated throughout, from the body panels and construction, through to new seat design that not only increases comfort, but actively absorbs collision energy. And we've gone further. Driver and passenger front, front side, front/rear curtain shield and driver's knee airbags are standard in all models.

Camry Hybrid i-Tech has Blind Spot Monitoring (BSM) to help avoid surprises from other road users travelling in the inside lane.

CAMRY HYBRID  
IN DIAMOND WHITE

Both Camry Hybrid models have extensive occupant protection with seven airbags throughout the cabin.

### Facts and Figures

	Camry Hybrid	Camry Hybrid i-Tech
Overall length:	4815mm	4815mm
Overall width:	1825mm	1825mm
Overall height:	1470mm	1470mm
Wheelbase:	2775mm	2775mm
Seating capacity:	5	5
Luggage capacity:	421L	421L
Kerb weight:	1575-1610kg	1575-1610kg
Gross vehicle weight:	2100kg	2100kg
Max towing capacity - braked:	300kg	300kg
Max towing capacity - unbraked:	300kg	300kg
Fuel consumption:	5.2L/100km	5.2L/100km
CO <sub>2</sub> Emissions:	121g/km	121g/km

CAMRY HYBRID IN DIAMOND WHITE

A sense of spaciousness and freedom is realised with the wide sweeping dash and sophisticated instrument panel.

i-TECH

Camry Hybrid i-Tech adds leather seating to the impressive interior design.

Camry Hybrid is finished in high grade fabric. The cabin offers a quiet and comfortable space for five adults.

Camry Hybrid has rear seat space for three adults or when required the split folding seat backs can accommodate longer luggage items.

Camry Hybrid has a full sized boot with 421 litres of luggage space. The right side rear seat folds forward providing an access hatch so long items can be carried.

Attention has been lavished on small details like the air conditioning controls and the variable texturing of surfaces.

Camry Hybrid combines the best of both world's. In ECO mode the sophisticated systems balance the petrol engine and electric motor for optimum efficiency. In EV mode drive comes from the electric motor.

CAMRY HYBRID IN DIAMOND WHITE

The Camry Hybrid's class leading fuel efficiency and smart features throughout will take you from sales trip to road trip, and around the next bend.

Rear seat i-Tech passengers are spared the glare and heat from the sun with a power sun shade.

Camry Hybrid i-Tech features a high grade JBL audio system with 10 speakers and a 7" TFT touchscreen that gives wide control over the car systems.

The leather-like dash is accentuated with a line of contrasting stitching adding to Camry Hybrid's elegant interior styling.

Both Camry Hybrid models have steering wheel mounted controls for audio, Bluetooth and Multi Information Displays. Voice control is added in Camry Hybrid i-Tech.

Camry Hybrid i-Tech combines powerful acceleration with the added luxury of enhanced interior design and functionality. Camry Hybrid i-Tech is ahead of its time.

# CAMRY HYBRID SPECIFICATIONS

	CAMRY HYBRID	CAMRY HYBRID i-TECH	
MECHANICAL SPECIFICATIONS	Engine description	2.5 Litre, 4 cylinder petrol engine, In-line type.	
	Hybrid system	Nickel-Metal Hydride (Ni-MH) battery, Permanent Magnet Synchronous Motor	
	Valve mechanism	16-Valve Double Overhead Cam (DOHC), with Dual Variable Valve Timing with intelligence (VVT-i)	
	Maximum power - Petrol engine	118kW @ 5700rpm	
	Maximum torque - Petrol engine	213Nm @ 4500rpm	
	Combined system output (petrol engine and battery)	151kW	
	Fuel type	91 unleaded petrol or higher	
	Fuel consumption - ADR81/02 combined cycle*	5.2L/100km	
	CO <sub>2</sub> emissions - ADR81/02 combined cycle*	121 g/km	
	Transmission - Continuously Variable automatic Transmission (CVT)	•	•
STEERING BRAKES SUSPENSION	Electric Power Steering (EPS)	•	•
	Brakes - Ventilated front disc; solid rear disc	•	•
	Electronically Controlled Brake system with Regenerative Braking	•	•
	Suspension - front: MacPherson strut type with stabiliser bar; rear - dual link type with stabiliser bar	•	•
	Park brake - Pedal type	•	•
EXTERIOR FEATURES	Wheels - Design and size	10-spoke 16" Alloy	5 dual-spoke 17" Alloy
	Tyre size	215/60R16	215/55R17
	Spare wheel - full size	Steel	Alloy
	Hybrid front grille and body coloured front/rear bumpers	•	•
	Halogen headlights with blue extensions; light control system (auto on/off)	•	Front fog lights
	Exterior door handles with front smart key sensors and rear boot garnish	Body coloured	Chrome
	Electric adjustable exterior mirrors with side indicators	•	With reverse tilt + BSM
INTERIOR FEATURES & CONVENIENCE	Dual zone automatic climate control and clean air filter with rear seat air conditioning outlets	•	•
	Seat material	Fabric	Leather
	Front seats - Slide, recline, height, lumbar (driver only) adjustment, driver power and passenger manual	•	•
	Front seats - Slide, recline, height, lumbar (driver only) adjustment, driver and passenger power with driver memory	•	•
	Rear seats with 60/40 split-fold seat backs and centre arm rest with cup holders	•	•
	Power windows front and rear, driver's side auto up/down	•	•
	Cruise control	•	•
	Urethane tilt and reach adjustable steering wheel with audio, Bluetooth and Multi-information display controls; urethane gear lever	•	•
	Leather tilt and reach adjustable steering wheel with audio, Bluetooth, voice and Multi-information display controls; leather gear lever	•	•
	Door scuff plates	•	•
Smart entry and start system	•	•	
STORAGE	Centre console storage boxes (2), lockable glove box; sunglass holder - front overhead console	•	•
	Door pockets - driver and front passenger; rear seat storage pocket - behind front seats	•	•
	4 cup holders (front console and rear centre armrest); bottle holders in doors	•	•
INSTRUMENTS & CONTROLS	Multi-Information Display - with odometer, twin trip meters, shift position indicator, outside temperature, range, average/instantaneous fuel consumption, average speed functions, energy flow and Eco drive level displays	•	•
	Optitron speedometer	•	•
	Economy meter with Eco indicator	•	•
AUDIO	AM/FM radio, 6.1" TFT touchscreen display, single disc MP3/WMA CD player, auxiliary input jack and USB connection, Bluetooth handsfree phone capability and audio streaming, album jacket display; fuel consumption, air conditioning, vehicle setting displays and 6 speakers	•	•
	AM/FM radio, 7.0" TFT touchscreen display, single disc MP3/WMA CD player, auxiliary input jack and USB connection, Bluetooth handsfree phone capability and audio streaming, album jacket display; voice recognition, Satellite navigation, digital audio and 10 speakers	•	•
SAFETY	Anti-Lock Braking System (ABS) with Electronic Brake-force Distribution (EBD) and Brake Assist (BA)	•	•
	Vehicle Stability Control (VSC), Traction Control (TRC) and Hill-start Assist Control (HAC)	•	•
	SRS airbags x 7 - driver and passenger front, front side, front/rear curtain shield and driver's knee	•	•
	2x3-point ELR front seat belts with pre-tensioners and force limiters; 3x3-point ALR/ELR rear seat belts; child restraint system with 3 tether points	•	•
	Front and rear seat belt warning buzzer and lights	•	•
	Blind Spot Monitor (BSM)	•	•
	Reversing camera	With static line	With backing guide
Rear parking sensors	•	•	
SECURITY	Engine immobiliser and alarm	•	•
	Speed detecting automatic door lock function (customisable off function)	•	•
	Smart key system	•	•
