PERFORMANCE

Uncompromised looks, or performance? Why not both?

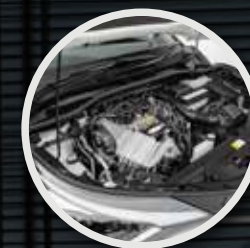

The C-HR's engine is nothing shy in the attitude department, and with a 1.8-litre engine in our hybrid variants you'll feel the pleasure of power without the guilt of frequent petrol station visits, all on a low 4.3L/100km*. With a maximum combined output of 90kW from the engine and self-charging hybrid electric system, power is on your side. You'll also have full control with EV, ECO, Sport and Normal drive mode options - to compliment your driving no matter the situation. Saving fuel, from long journeys to day-to-day commuting - you're in control of your engine with the C-HR.

Under the bonnet of the C-HR Petrol variant is a 1.2-litre turbocharged petrol engine, with a maximum power of 85kW at 5200-5600rpm. Match this with a 185Nm peak torque, between 1500 and 4000rpm, and you've got yourself a smooth ride with slick looks.

C-HR is built with the architecture to compliment performance and driving enjoyment. Built on Toyota's revolutionary Toyota New Global Architecture platform, it provides a lower centre of gravity, with front and rear stabiliser bars to make any journey an experience, near or far. The MacPherson strut and trailing wishbone suspension also ensures any bumps in the road are absorbed.

The AWD option gives you more control in less than ideal driving conditions; all while making light work of long steep hills and delivering traction that gives you complete confidence on long road trips.

* Fuel consumption as per ADR 81/02 (combined cycle) and emissions as per as per ADR 79/04 (combined cycle)

SAFETY

C-HR is a fun, boldly designed, compact SUV that takes safety seriously. It has an impressive array of safety features, so you can rest assured when travelling from A to B.

Toyota Safety Sense* is a package of active safety systems designed to keep you and your passengers protected in all types of traffic.

Included in the Toyota Safety Sense package for C-HR is: Pre-Collision System with Autonomous Emergency Braking; Lane Departure Alert with Steering Assist; All-speed Dynamic Radar Cruise Control and Automatic High Beam.

*refer to last page

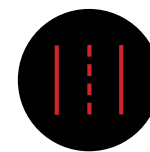

Pre-Collision System with Autonomous Emergency Braking and Pedestrian Detection

The Pre-Collision System uses a radar sensor and a camera to determine whether a frontal collision with another vehicle or pedestrian is imminent and if necessary, will warn you with an audio and visual alert to urge you to take evasive action. It then prepares the Brake Assist system to provide maximum braking assistance.

Automatic High Beam

Automatic High Beam is designed to help improve forward visibility when driving at night by making maximum use of the high beam headlights. The system uses a camera to detect the headlights and taillights of vehicles ahead, or bright environments such as city streets, and automatically switches between high beam and low beam as required to avoid dazzling other drivers.

Lane Departure Alert with Steering Assist and Vehicle Sway Warning

Lane Departure Alert is designed to reduce the possibility of an accident due to your vehicle unintentionally drifting out of its lane. The system recognises visible white and yellow lane markings and if it detects the possibility of lane departure, will urge you to steer back into the lane using an awarning buzzer and a visual display. The system can also provide assistance by applying a small force to the steering wheel for a short time to help the driver keep the vehicle in its lane.

If the system detects the vehicle is swaying (or wandering) within its lane, which is often the result of a driver who is tired, distracted or not looking ahead, a warning buzzer sounds and the decrease in attention is shown using a display on the dash.

All Speed Dynamic Radar Cruise Control

All-speed Dynamic Radar Cruise Control helps make driving safer by keeping a constant pre-set distance between your vehicle and the vehicle ahead, enabling you to pay more attention to the road conditions and the vehicles surroundings.

All-speed Dynamic Radar Cruise Control maintains an adjustable vehicle-to-vehicle distance by automatically accelerating up to a set speed, decelerating or stopping your vehicle to match the speed changes of the vehicle ahead without having to use the accelerator or brakes.

OTHER STANDARD SAFETY FEATURES

BLIND SPOT MONITOR

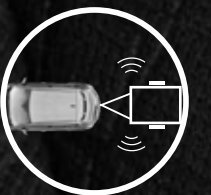

PARKING SUPPORT ALERT WITH REAR CROSS TRAFFIC ALERT

PARKING SENSORS

HILL-START ASSIST CONTROL

TRAILER SWAY CONTROL (PETROL VARIANTS ONLY)

EXPLORE THE RANGE

C-HR

Save the environment from dull cars

Clearly the C-HR is not for the shy. But there's plenty of subtle details to get excited about, from the little touches of diamond pattern embossing in the crafted fabric seats to experiencing your favorite tunes on Apple CarPlay® or Android Auto™. This is a vehicle built for both style and comfort.

This confident looking C-HR has practicality built into its style, with Parabola LED Headlights and front fog lights to keep you seen, and Toyota Safety Sense to keep you safe.

Extra additions like rain-sensing wipers and a reversing camera, plus parking sensors mean less stress when you're out and about.

Satellite Navigation with SUNA traffic channel (only available in select regions) and Dual Zone Air conditioning for both driver and passenger's comfort are features that we know will make your life easier and driving more enjoyable. All in all, adding strong function and practicality to the C-HR's sharp designs.

C-HR

LIMITED

Tone it up. Not down

The C-HR Limited is not for wall flowers. Stand out in one of eight vibrant colour options and ride on 18" alloy wheels. Or for added personalisation choose from one of the six unique two-tone options.

Inside, you'll feel at one with your C-HR when you sit back in the ergonomically designed leather accented interior with driver's seat lumbar support, along with front seat heaters to ensure you and your front passenger's comfort is top priority.

An 8" inch touchscreen display with 360 degree panoramic view monitor allows full visibility, to make anything from tackling tricky city car parks to manoeuvring tight driveways a breeze.

Smart key entry and push button start, ensures a smooth entry without fumbling for a key, allowing you to juggle even more on the go.

Plus loads of added features like slick illuminated front door trim and cup holders, orchid brown interior colour accents, rear sequential indicators, Bi-Beam LED headlights and automatic headlight levelling, make the C-HR Limited that little bit extra.

ACCESSORIES

Only Toyota Genuine Accessories are designed and manufactured to the same high standard as original parts. Fitting Genuine Toyota Accessories also ensures the integrity of your vehicle, with components tested to exacting standards for New Zealand conditions and backed by a 3 year or 100,000 kilometres* warranty. For more information on our Toyota Genuine Accessory range please contact your local Toyota Store or visit our website: www.toyota.co.nz

*Whichever comes first. Warranty valid from when accessory fitted, at time of new vehicle purchase at your Toyota Store.

Fog Light Garnish Add a touch of colour to your ride with a personalised fog light garnish. Available in white, grey and red. Red fog light garnish shown.

Front Under Guard The front underrun provides your car with a bold, tough appearance. Fitment of front underrun not compatible with front skirt and front guard.

Bonnet Protector The integrated design of the bonnet protector offers added protection to the vehicle from light damage from road debris. It is made from a high-strength acrylic that is resistant to cracking and UV discolouration.

Roof Racks Made using high-strength materials and tested to global standards, the Toyota Genuine roof racks boost the cargo carrying flexibility of your C-HR. The roof racks are engineered for a precise fit onto the roof area, and with an aerodynamic design to reduce wind noise. Mounting points are provided for a range of recreational activities, making your adventure possibilities endless.

Mirror Covers Stand out from the crowd with a pop of colour added to the outside mirror covers. Available in white, grey and red. Red mirror cover shown.

Mudguard Set Mudguards are especially shaped to fit the wheel arches of your vehicle. They help maintain your car's good looks by protecting against excessive dirt, mud spray and flying stone chips. Mudguard fitting kit is required for installation, sold separately. Fitment of mudguards not compatible with side steps and side skirts.

Slimline Weathershields The Toyota Genuine slimline weathershields assist in restricting the entry of wind and water when driving with windows in a slightly open position. This allows air flow through the cabin without exposing the occupants, interior and trim to the elements. The slimline weathershields also integrate seamlessly with the C-HR's styling by matching the vehicle's aerodynamic contours whilst adhering to Toyota's strict strength and durability requirements.

Side Steps Besides adding an extra element of visual appeal to your vehicle, the stainless steel side steps assist with vehicle entry and as an elevated platform for roof access. Fitment of side steps not compatible with side skirts, mudguards, side underrun.

Lower Hatch Garnish A trim with a smart colour finish to add an extra element of style along the lower edge of the boot. Available in white, grey and red. Red lower hatch garnish shown.

Rear Underrun The stylish underrun is the ideal combination of protection and style. It protects the rear underbody of the vehicle and contributes to the premium appearance of the vehicle. Fitment of rear underrun not compatible with rear skirt, trailer wiring harness and towbar.

Rear Bumper Protector - Stainless Designed to help protect the rear bumper paintwork against scratching when sliding cargo into the boot. Available in plastic or stainless steel. Stainless steel rear bumper protector shown.

Side Sills Contoured to integrate smoothly with the side of your vehicle, the side sill garnishes add a touch of class as well as personality to your vehicle. Available in white, grey and red. Red side sills shown.
