

Environmental Policy

Toyota New Zealand seeks to make a positive contribution to New Zealand's communities and environment through corporate leadership, respect for people and commitment to continuous improvement.

Toyota Strategies to achieve this include:

Better Product

TNZ is committed to meeting customer expectations for more environmentally-responsible vehicles by:

- Taking a leading role in the distribution of fuel efficient and low emission vehicles into New Zealand
- Providing refurbished used vehicles to extend vehicle life
- Introducing technologies and materials which minimise impacts at every stage of a vehicle's lifecycle
- Challenging the NZ car industry to compete on environmental performance

Better Practices

TNZ is committed to minimising the footprint of our operations by:

- Integrating environmental responsibility, reporting and performance targets into management decision-making
- Improving efficiency, reuse and recycling to lower resource consumption, greenhouse gas emissions, pollution and waste
- Striving to exceed statutory regulations and adopting preventive measures to reduce the risk of environmental incidents
- Encouraging best practice amongst dealers and suppliers.

Partnerships

TNZ is committed to working with others to conserve and enhance the environment by:

- Actively supporting activity which advances sustainable business practice
- Collaborating with government and non-government agencies to tackle vehicle and traffic impacts
- Working with stakeholders to understand and address their interests and concerns
- Investing and participating in projects to improve natural and community environments.

Education & Promotion

TNZ is committed to promoting public awareness of environmental issues and solutions by:

- Clearly communicating Toyota's environmental activities and technology
- Raising the understanding and actions of our employees with appropriate information, training and support.
