

Through successive generations the city-friendly Yaris has proven itself a dependable hatchback that offers so much more. It's a capable and compact car boasting all the high-tech comfort and convenience you'd normally expect to find in a much bigger model. Featuring fresh, modern exterior design details and an incredible level of specification across the model range, including the sporty ZR variant with plenty of premium extras, the Yaris line-up is set to surprise. **Because everyone needs a little Yaris in their life.**

YARIS GX IN GLACIER WHITE

YARIS ZR IN TIDAL BLUE

Big things, small packages

Forever practical, yet with its fair share of inner-city zip thanks to the 1.3-litre and 1.5-litre petrol engine options, the Yaris will surprise with the comprehensive array of convenience features and technology it packs into its compact footprint. With three distinct grades to choose between, there's a Yaris to suit absolutely everyone.

Features that make a difference

Exterior - modern for the city

The Yaris has never looked so good.

This compact car for the urban lifestyle features five doors and a boot that will take all your shopping and more. No less than three new wheel designs (with 15" and 17" alloy wheels for the SX and ZR grades respectively) make their debut, while stylish updates to the exterior also make their mark.

Every Yaris features new front bumpers, a wide trapezoidal lower grille profile and detail-rich headlights while front fog lamps with chrome accents feature on SX and ZR models. All models have restyled rear bumper treatments and LED rear stop lamps.

These sparkling new exterior details really sing on the Yaris ZR, with its sporty side spoilers, rear lower bumper garnish, roof spoiler and an exhaust diffuser with a chrome-tipped tail pipe. Yaris ZR now features heated door mirrors; a handy addition for those frosty winter morning runs into the city. Privacy glass in the rear side doors and rear door complete the stylish package.

Interior - room to move

Hop in; it's easy. And you simply won't believe you're sitting in Toyota's most compact hatchback.

Look around the cabin and not only will you be impressed with the quality materials on offer, you'll also note that this is one compact car with comfortable dimensions; and that's before you look ahead to the Yaris' modern dashboard and centre console. The standard comfort and convenience features really are second-to-none.

Every Yaris receives Toyota's 6.1" touchscreen display. Built into the touchscreen functionality is a reversing camera ensuring reversing manoeuvres can be completed safely and with confidence; static guidelines arranged on the screen allow the driver to better judge approach angles and distances when reversing too.

You'll never get lost in town again with Toyota's comprehensive and easy-to-use integrated Satellite Navigation system, available in the Yaris SX and ZR grades. The Satellite Navigation system incorporates Voice Recognition software and SUNA Traffic technology,* which provides the driver with real-time traffic data and alternative route information in order to tackle that congestion with confidence.

The impressive list of features includes cruise control plus Bluetooth hands-free connectivity for safely making and receiving phone calls. Bluetooth audio streaming, MP3 and USB integration including album cover art display are featured as well. SX and ZR grades also enjoy climate control air conditioning.

Additionally the Yaris ZR arrives with contoured sports-style front seats, a sports-style steering wheel and carbon-look trim accents to underline this model's performance flavour. * SUNA traffic information only available in some regions.

- 1) The 17" alloy wheels exclusive to Yaris ZR are silver faced machine finished over black perflectly complimenting the sporty styling of ZR
- All Yaris models have Toyota Safety Sense as standard. This includes Pre-Crash System (PCS), Lane Departure Alert (LDA) and Automatic High Beam (AHB). LDA and AHB can be switched on and off with the conventiently postioned buttons
- 4 Yaris GX is available with either a 5-speed manual transmission or a 4-speed automatic transmission
- (5) Both SX and ZR have climate control air conditioning
- (6) Rear parking sensors for SX and ZR assist when negotiating tight spaces

(3) Yaris ZR features LED Bi-beam headlights

FRONT WHEEL DRIVE 1.3L PETROL 5-SPEED MANUAL OR 4-SPEED AUTOMATIC TRANSMISSION The practical Yaris GX is packed with the sort of convenience items and standard technology that will truly surprise. A comfortable cabin with impressive features such as a full-colour reversing camera and Bluetooth hands-free capability give the GX a specification you'd usually only expect from a larger vehicle. The Yaris GX offers so much flexibility; its fuel-efficient 63kW 1.3-litre four cylinder petrol engine is available matched with your choice of a manual or automatic transmission, so you can drive the way you want.

YARIS GX IN GLACIER WHITE

GX

- 1 The willing 1.3L engine in Yaris GX is perfect for around town trips
- 2 Yaris GX benefits from a 9.4m turning circle that will make your manoeuvers into tight parking spaces a breeze
- All Yaris feature a reversing camera, helping to ensure children and obstacles behind the car can be spotted quickly. Static guidelines arranged on the screen allow the driver to better judge approach angles when reversing into even the tightest city parking spaces
- (4) The Yaris GX steering wheel features convenient controls for the audio and Bluetooth phone system. The stylish three ring combination meter, off-set with a Multi-Information Display (MID) providing essential vehicle data, such as average speed, current and average fuel consumption, available range, twin trip meters and odometer.
- (5) Toyota Safety Sense (TSS) features in all variants. Lane Departure Alert (LDA) and Automatic High Beam (AHB) can be switched on and off with the handy dash buttons
- (6) Cruise control is featured across the Yaris range
- (7) Yaris GX is available with a choice of a 5-speed manual or 4-speed automatic transmission

FRONT WHEEL DRIVE 1.5L PETROL 4-SPEED AUTOMTAIC TRANSMISSION The Yaris SX builds on the Yaris' comprehensive specification with even more impressive features. You'll find premium detailing inside the cabin including a genuine leather steering wheel and gear knob, as well as chrome detailing in the instrument panel. For your comfort, there's also climate control air conditioning, while integrated Satellite Navigation incorporating Voice Recognition software (accessible via steering wheel controls) and real-time SUNA Traffic update technology^{*}, make this an impressive package.

1 The SX adds fog lights up front and attractive 15" alloy wheels, giving it a premium appearance outside

2 Belying its small car status, the Yaris boasts a well-proportioned cargo area with a 347L cargo capacity

- The SX boasts an intuitive Satellite Navigation system which even incorporates Voice Recognition software and SUNA Traffic technology*. This provides the driver with real-time traffic data and alternative route information in order to tackle congestion with confidence
- Inside the cabin, leather and chrome accents further the theme, offering something above the ordinary
- 5 Yaris has interior space that belies its exterior dimensions
- 6 With plenty of room in the back, the Yaris features a rear seat with two ISO fixing points and three tether anchors for child seats. Three-point ELR seatbelts are standard in all five seating positions

FRONT WHEEL DRIVE 1.5L PETROL 4-SPEED AUTOMTAIC TRANSMISSION

The range-topping Yaris ZR effortlessly underscores everything that is fun about a compact hatchback, with a performance-themed trapezoidal grille design, LED Bi-beam self-levelling headlights, along with sports-style additions like side skirts and a rear roof spoiler. Stylish privacy glass, an exclusive 17" alloy wheel design and sporty accents inside the cabin complete the package.

- (1) The stylish design detailing and unique 17" alloy wheels of the range-topping ZR sets it apart from the crowd making it a car that reflects everything that is fun about a characterful compact hatch
- 2 Sports style detailing is everywhere inside the ZR's cabin. A carbon-look instrument panel, ergonomically-designed sports-style seats and a genuine leather-wrapped 'D Shape' steering wheel effortlessly extend the mood
- (3) Intuitive controls for the climate control air conditioning in SX and ZR make adjustment while driving an easy process
- (4) The dimple pattern on the gear knob and steering wheel of Yaris ZR reflect its sporty nature

Every Yaris including the ZR arrives with the proven reliability of Toyota's fuel efficient petrol engines on-board. This eager and efficient powerplant features proven technology, such as Dual Variable Valve Timing-intelligent (VVT-i) and Electronic Fuel Injection (EFI) for a better on-road experience. After all, the Yaris might be city-sized, but you don't want to be just limited to the suburbs for that weekend drive.

- Frivacy glass looks great and is very practical too. It minimises harmful UV rays and also keeps anything you have stored in your Yaris ZR's rear seat out of sight when parked in town
- (6) LED Bi-beam headlights with automatic self-levelling feature up front; bright and clear LED tail lamps at the rear.
- The ZR interior boldly follows the exterior sports styling including black fabric with grey striping and a carbon-fibre like dash panel

Safe and ready to go

The 5-star ANCAP rated Yaris range gives you peace of mind while you're out and about getting on with your day. Its standard levels of safety technology have to be seen to be believed.

There is a full complement of seven airbags on-board every Yaris - including driver and front passenger, front side, front/rear curtain shield and driver's knee protection. All seating positions feature 3-point Emergency Locking Retractor (ELR) seatbelts with driver and front passenger seats having Pre-Tensioners and Force Limiters. The rear seat includes ELR seatbelts in all positions along three tether anchors and two ISOFIX child seat tether anchor points.

Toyota's comprehensive Safety Sense package has also been added to every Yaris, giving drivers everywhere and in all types of environments a truly impressive level of standard safety technology. This system incorporates a number of high-tech safety measures, including Toyota's Pre-Crash System (PCS), Lane Departure Alert (LDA) and Automatic High Beam (AHB).

Standard safety equipment on all Yaris grades also includes Vehicle Stability Control (VSC) and Traction Control (TRC). TRC helps to prevent wheel slippage when the vehicle is starting or accelerating on wet or slippery roads. VSC helps the driver correct a loss of control if it detects that the vehicle is starting to skid or slide due to factors like an abrupt steering input or a slippery road surface. A reversing camera enhances safety in every variant and there are rear parking sensors for SX and ZR models.

A Pre-Tensioner automatically retracts the seatbelt and helps secure the occupant at the moment of severe forward deceleration. If the shoulder belt forces applied to the occupant reaches a predetermined amount, then the Force Limiter allows the webbing to extend to help reduce pressure on the occupant's chest.

Safety isn't just a priority for the Yaris Hatch. The 5-Star ANCAP safety rating is testament to its renowned Toyota build quality.

If you need to stop in a hurry, Brake Assist (BA) and Electronic Brake-force Distribution (EBD) will help slow you safely. Brake Assist (BA) measures the speed and force with which the brake pedal is pushed to determine whether the driver is attempting an emergency stop. If that is the case, BA applies additional brake pressure to allow the Anti-lock Brake System (ABS) to function to its full extent. Once the driver intentionally eases up on the brake pedal the system reduces the amount of assistance provided. An emergency brake signal automatically blinks the vehicle's hazard lights under heavy braking, warning the vehicle behind.

Electric Power Steering (EPS) is vehicle speed sensitive so low speed manoeuvers require minimal effort while at highway speeds less assistance is provided. The turning circle for GX is 9.4m while for SX and ZR it is 9.6m.

Vehicle Stability Control (VSC) and Traction Control (TRC) work in the background to add an extra margin of safety.

Standard across all models, the reversing camera greatly enhances your safety by helping you avoid pedestrians and obstacles when backing out of a tight spot.

The rear seats have two ISOFIX fixing points enabling child seating to be easily attached. There are also 3 tether anchors.

Yaris occupants are well protected with driver and front passenger, front side, front/rear curtain shield and driver's knee airbags.

Make Yaris your own

Only Toyota Genuine Accessories are designed and manufactured to the same high standard as original parts. They are engineered using manufacturer data to ensure that vehicle integrity is not compromised. This means the functionality of important precision systems such as airbags will not be impaired by their installation.

Weathershields - visor. Lightly tinted acrylic weathershields for front doors only - sold separately.

Cargo liner. This all weather rubber cargo liner will keep your boot protected. It's custom moulded to ensure a secure fit but can be removed and hosed off for easy cleaning.

Wheels - 15 inch Podium wheels. Distinctive 15" alloy wheel with a dark metallic-grey finish.

Carpet floor mats - 'Yaris' branded. Set of front and rear carpet mats with the driver's mat secured by two retainers for safety.

Rear bumper protector. This black ABS bumper protector helps to protect the rear bumper from scuffs and scrapes.

Towbar and wiring harness. Fixed tongue towbar rated to 900kg braked. Trailer wiring harness, towball and towball cover available - sold separately.
