# HIACE

# HIACE

No wonder the spacious, powerful and versatile Toyota Hiace has been the van of choice for Kiwi tradespeople and businesses of all sizes for more than 40 years. There are many different ways the Hiace works: as a two, five or 12-seater, with powerful and efficient petrol or diesel engines with your choice of manual or automatic transmissions. Be prepared to start your day with the best Hiace yet. The specification includes safety features like VSC and with a choice of exterior body styles, the Hiace is available in handy configurations that offer variations in load capacity, seating capacity and dedicated people movers.

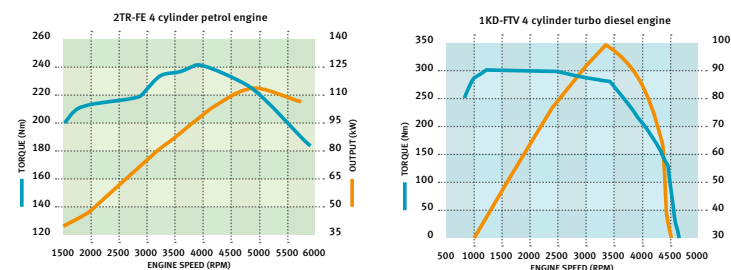

HIACE ZL HALF GLASS VAN IN QUICKSILVER

## Power through your day

Delivering plenty of power through a choice of 118kW/243Nm 2.7-litre petrol or 100kW/300Nm 3.0-litre turbo diesel engines, the Hiace has more than enough grunt for any trade task, even with a big load in the back.

Hiace is economical to run as well, with transmission and engine-dependent combined fuel economy figures of between 8.1-litres/100km\* and 10.8-litres/100km\*.

Thanks to EURO 5 emissions compliancy, Hiace is a clean performer as well as a reliable one, with both engines specifically designed to cope with the stresses of long running hours demanded by commercial operators.

The 2.7 litre petrol engine has the same level of sophistication as engines found in many passenger cars but with power and torque output developed to meet the needs of commercial drivers.

The 3.0 litre common rail turbo diesel engine is a four cylinder 16 valve DOHC design with intercooler that produces maximum torque from just 1200rpm.

\* Petrol fuel consumption as per ADR 81/02 (combined cycle) and CO<sub>2</sub> emissions as per ADR 79/04 (combined cycle); Diesel fuel consumption as per ADR 81/02 (combined cycle) and ADR79/04 & ADR30/01 diesel (combined cycle) are tested in a controlled environment.

## Built for business

The immensely popular Hiace ZL is available in full glass and half-panel variants offering great flexibility for business or pleasure.

Hiace ZL half-panel van offers both extra privacy and extra seating. The five-seater half-panel van acts like an enormous wagon, giving passengers plenty of outward vision while providing huge cargo space with extra security at the rear.

Despite the dimensions of the Hiace's ZL or ZX cargo space, everything you stow inside remains within easy reach, thanks to the combination of a wide-opening rear door and dual sliding side doors that makes the most of access to the van's centre.

## Space for any trade

Hiace reaps the benefits of its large capacity carrying abilities, giving the bulk of interior space to the tools of trade that keep Kiwi businesses moving.

There is plenty of usable space for anything from boxes to building supplies, pot plants to plumbing gear. With load space measuring 2930mm length/1545mm width/1335mm height for Hiace ZL glass variants, the Hiace provides a spacious interior to fill with whatever is crucial to your working week or weekend.

Showcasing supreme space for all, the popular Hiace Minibus seats 12 in comfort, whether your journey is taking you across town or country.

Access to and from the rear of the Minibus for passengers remains easy, thanks to this model's higher roofline and wide access side door.

Additionally every Hiace features Bluetooth hands-free phone connectivity and audio streaming, voice recognition, steering wheel audio controls, cruise control, powered front windows, tie-down hooks in the van cargo floor and UV reduction glass throughout.

The load space in Hiace adapts to any load with dual sliding doors, a high lift rear door and tie down hooks inside.

The Hiace line-up is world famous for its reliability record; reassuring when you drive for a living and being off the road due to mechanical problems isn't an option.

It all starts with the Hiace ZL: an efficient and practically packaged van that just gets on with the job at hand, so you can get on with yours.

The Hiace ZL arrives with standard 15" steel wheels. Available in half-panel and full glass body styles, the recognisable exterior shape of the Hiace lends itself to promotional signage.

HIACE ZL FULL GLASS VAN IN FRENCH VANILLA

HIACE ZL HALF PANEL VAN IN QUICKSILVER

- 1 Both variants of Hiace ZL have sliding doors on both sides for easy loading
- 2 Hiace ZL driver and front passenger have an expansive view over the clean dash. The audio system includes a radio, MP3/WMA CD player, auxiliary input jack and USB connection, Bluetooth handsfree phone capability and audio streaming, voice control for audio/phone, three line text display, radio text, and two speakers
- 3 The durable fabric seats and vinyl floor make for an easy-care environment
- 4 Ample covered storage helps keep the interior clutter free, preventing reflective objects interfering with visibility
- 5 The generously sized centre console is the perfect place to manage the many items you need to access throughout the working day
- 6 The cab forward design neatly packages the engine under the front passenger seat
- 7 A second row seat in ZL half panel and full glass manual variants provides extra seating capacity for three or can be folded for additional cargo space

The Hiace ZX's interior is as cavernous as it is clever. The intelligently designed layout helps you to maximize the number and size of items you can carry, while making short work of deliveries, drop-offs or removals. And the combination of a wide opening rear and dual sliding side doors means you can easily reach any items you're moving. The low level loading, rear step bumper and tie-down hooks makes ZX the large van of choice. With ample space between the rear wheel arches, standard building panels fit with ease.

HIACE ZX VAN IN QUICKSILVER

2

HIACE ZX VAN IN QUICKSILVER

- 1 Left and right sliding side doors plus the high-lifting rear door give easy access to the shed-sized space inside
- 2 The extra width of ZX van means a panoramic view of the road ahead
- 3 Hiace ZX is all about large loads but the driver and passenger aren't forgotten with easy access to the supportive seating
- 4 Whether you choose manual or automatic the dash mounted gear lever maximises interior space
- 5 The centre console in ZX vans will handle all the small items you need to keep close to hand
- 6 The centrally housed audio can handle phone calls and accepts 3.5mm aux and USB connections
- 7 With its large load area the Hiace ZX van easily stows and carries standard building products. The low level loading, rear step bumper and tie-down hooks makes ZX the large van of choice. With ample space between the rear wheel arches, standard building panels fit with ease

# Make Hiace your own

With a Hiace on your fleet, there's also a range of Toyota Genuine Accessories that will allow you to customise your Hiace to suit your needs.

HIACE ZL HALF PANEL VAN SHOWN FITTED WITH ROOF RACK.

Only Toyota Genuine Accessories are designed and manufactured to the same high standard as original parts. Fitting Genuine Toyota Accessories also ensures the integrity of your vehicle, with components tested to exacting standards for New Zealand conditions and backed by a 3 year or 100,000 kilometres\* warranty. \*Whichever comes first. Warranty valid from when the accessory is fitted, at time of new vehicle purchase at your Toyota Store.

## HIACE EXTERIOR COLOURS

Your Hiace is essentially your mobile office, so offering the certainty of a safe driving environment for your busy day is a high priority for Toyota. Every Hiace features a comprehensive standard safety package, including Vehicle Stability Control, Traction Control, Brake Assist and Hill Start Assist Control.

In the cabin, occupant safety and comfort is paramount, with large and convenient storage for lunchboxes, workbooks and mobile devices. Five-seater models also sport a roomy seating environment in the rear featuring 3-point, Emergency Locking Retractor (ELR) seatbelts fitted in each outer seating position with a 2-point centre seat belt.

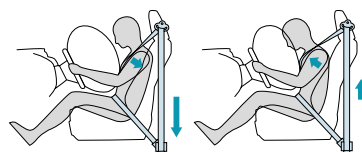

Hiace Minibus features 3 x Tether Anchors and 3 x ISOFIX points.

Hiace ZL full glass vans have achieved 4-stars in the ANCAP safety test.

- 1 Front seat occupants are protected with airbags in the front dash and steering wheel
- 2 Each Hiace features a reversing camera with static guide lines and a clever colour monitor camera embedded in the rear view mirror, offering extra convenience in confined urban delivery zones and added peace of mind when reversing in residential areas
- 3 VSC (Vehicle Stability Control) helps you correct a loss of control by detecting if the vehicle is starting to skid or slide. By comparing the vehicle's direction of travel with your steering, acceleration and braking inputs it can tell if you are deviating from the intended direction. VSC then warns you, reduces engine power and controls the brakes to help you correct the situation.

Front seat pre-tensioners instantly tighten the seat belts at the time of a collision to help enhance occupant restraint performance. The force limiter function loosens the seat belts while maintaining the load to help mitigate the impact to the chest regions of the front seat occupants.

**Nudge Bar - Standard** Made from stainless steel this SRS airbag compatible nudge bar has driving light mounts.

**Towbar and Accessories** Safely tow 1400kg braked/700kg unbraked trailers with this fixed tongue towbar and accessories.

**Towbar/Bullbar with Steps and Accessories** The combination Towbar/Bullbar can safely tow 1400kg braked, 750kg unbraked. Available without step plates.

**Front Seat Covers - Canvas** Protect the front seats of your Hiace with these durable grey canvas seat covers.

**Nudge Bar - Deluxe** This polished alloy nudge bar is SRS airbag compatible and has driving light mounts.

**Weathershields** allow fresh air into the cabin while protecting you from the elements. They are lightly tinted to reduce glare and resistant to UV discolouration.

**Roof Racks** A wide range of roof racks and load carrying accessories are available from your local Toyota Dealer.

**Front Floor Mats - Rubber** These heavy duty rubber floor mats will protect the floor of your Hiace. Driver's side has two clips for safety.
