

LAND CRUISER PRADO

ALL WHEEL DRIVE

2.8L TURBO DIESEL

6-SPEED
AUTOMATIC
TRANSMISSION

With ample reserves of power, a comfortable cabin boasting plenty of space and seating for 7, the GX might signify the comprehensive Prado line-up's starting point, but its sumptuous specification and performance both on and off-road simply leaves its competitors in the dust.

PRADO GX IN GLACIER WHITE

Prado GX features black seat fabric and door trims, complemented by a dark instrument panel highlighted with silver accents.

All models feature a 7" colour touch screen where
Satellite Navigation with SUNA Traffic Avoidance System
(traffic information only available in some regions),
Bluetooth hands-free phone capability, USB connection, climate
control information and the reversing monitor are all displayed.

Accessing the 3rd row of seats is a breeze with the Prado's walk-in entry system. When not required the 3rd row of seats are easily folded flat.

The Prado GX will exceed expectations; a class act in the city, there's also nothing more suited for negotiating that gravel track to the family beach house.

ALL WHEEL DRIVE

4.0L V6 PETROL

6-SPEED
AUTOMATIC

Building on an already comprehensive specification, the VX impresses with creature comforts like premium leather interior and amber LED illumination highlighting key contour lines. Equally this all-rounder also features Blind Spot Monitor (BSM), Rear Cross Traffic Alert (RTCA) and a choice of engines, with both the powerful 4.0L V6 petrol and the real world fuel efficiency of Toyota's new 2.8L turbo diesel available.

PRADO VX IN SILVER PEARL

VX and VX Limited have a Multi-Terrain Monitor which provides a view of the terrain in front, to the rear and on both sides of the vehicle so you can be sure of where you're driving.

Prado's signature vertical grille lines create a bold statement and dominating road presence.

Narrowed headlights stretch outwards, underlining this ultra-capable SUVs solid sense of purpose.

The Prado VX's 4 spoke leather steering wheel houses controls for the audio system, Multi-Information Display (MID), cruise control, Bluetooth voice controls and wide view monitor controls. The centre console and instrument panel features soft-touch surfaces, inlaid with silver detailing and wood-grain accents.

The new 6-speed automatic transmission in all Prado diesel models also features shift control and a sequential manual mode. With all-wheel drive, the driver can access high and low ratios through a convenient rotary switch on the centre instrument panel.

All models feature 3 zone climate control air conditioning with independent driver, front passenger and 2nd row seat with temperature controls.

The premium 14 speaker JBL audio system with subwoofer is perfectly tuned to the interior acoustics of the Prado VX and VX Limited. With everything at your fingertips, the innovative Satellite Navigation system does more than help you find your way. If a delay occurs on your planned route, the SUNA Traffic Avoidance System provides an alternative route to keep you moving (traffic information only available in some regions).

VX LIMITED

ALL WHEEL DRIVE 2.81 TURBO DIESEI 6-SPEED AUTOMATIC TRANSMISSIC

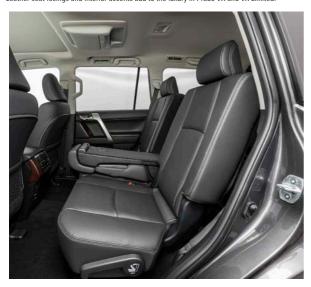

The VX Limited is a true class defining vehicle, featuring superior luxury, safety and ability. Along with exclusive interior features like the rear seat entertainment system, the VX Limited remains unmistakably an unbeatable Land Cruiser.

PRADO VX LIMITED IN GRAPHITE

Leather seat facings and interior accents add to the luxury in Prado VX and VX Limited.

The tri-folding 2nd row seats feature a simple lever-operated walk in entry system to allow passengers quick access to 3rd row seating.

The 4 spoke leather steering wheel features premium quality wood-grain detailing and houses controls for the audio system, Multi-Information Display (MID), Dynamic Radar Cruise Control (DRCC), and Bluetooth voice controls.

The full capabilities of the VX Limited's proven on and off-road performance can be easily explored with simple, intuitive controls housed within easy

automatically via buttons located within VX and VX Limited's cargo area. The 3rd row of seats are split-folding for added flexibility.

A handy coolbox within the front centre console means VX Limited passengers can enjoy chilled refreshments on the move

Break up that long journey for those in the rear with a 9" ceiling mounted adjustable display attached to a Blu-ray player and powerful surround sound system. There are even 2 sets of wireless rear seat headphones that allow for a different audio track to be played to rear seat passengers, meaning front seat passengers can enjoy music while those in the 2nd and 3rd rows can watch a Blu-ray or DVD.

Charging portable devices on the go is easy for rear seat passengers with a power socket located on the lower panel of the centre console.

Performance and off-road technology for all seasons

The comprehensive Prado range really does feature something for every driver, starting with a choice of 2 engines. The GX, VX Diesel and VX Limited variants all feature a new powerful and efficient turbo-charged common rail direct injection 2.8L diesel, while the VX petrol has a powerful 4.0L V6 engine with Dual Variable Valve Timing-intelligent (VVT-i) and Electronic Fuel Injection (EFI).

Clever technology, like the Kinetic Dynamic Suspension System (KDSS) is available in VX and VX Limited models. This system optimally adjusts the front and rear stabiliser bars to suppress body roll on-road.

Added features like Hill-start Assist Control (HAC), Downhill Assist Control (DAC) and Active Traction Control (A-TRC) provide assurance during an off-road adventure. DAC is designed to keep the vehicle at a low and constant speed and to maintain control during a steep descent. VX Limited has CRAWL control that acts as an 'off road cruise control' and automatically applies additional power or braking to maintain a very low speed - allowing the driver to concentrate fully on steering through tricky terrain.

The five mode Multi-Terrain Select (MTS) in the VX Limited gives you even more power over the off-road, the inclination monitor tells you precisely how far you can lean the vehicle without fear of tipping it over. VX and VX Limited have a Multi-Terrain Monitor which provides a view of the terrain around the vehicle so when you are off-road you can be sure of where you're driving.

Features that make a difference

EXTERIOR - Bold and stylish in equal measure

Land Cruiser Prado is instantly recognisable thanks to the signature 5 pillar chrome front grille. Land Cruiser design DNA is evident everywhere; with distinctive body contour lines and logo engraved head and tail lights; this go-anywhere 4WD enjoys comfortable approach and departure angles for whatever lies ahead.

Black roof rails and side steps feature on all grades, while VX and VX Limited sport 18" dual 'V' spoke design alloy wheels. VX and VX Limited grades also feature headlights with LED low beams, front fog lights and all grades receive Daytime Running Lights (DRL).

The rear bumper features an integrated step. An upper spoiler and chrome plated door garnish frame a top-hinged glass tailgate hatch which gives access to the vehicle's load space even in confined spaces.

INTERIOR - Luxuriously appointed at every turn

Inside the cabin, the Prado's superior quality trim, specification and space are instantly noticeable.

With space for 7 and clever tri-folding 2nd row and split-folding 3rd row, the Prado provides supreme comfort for every journey. Fabric trim for GX and genuine leather seat facings for VX and VX Limited are paired with soft touch surfaces with silver and woodgrain trim accents.

Subtle LED illumination sits inside the VX and VX Limited door handles, making for an inviting environment in the dark, while VX Limited also boasts a chilled central storage compartment so everyone on-board can enjoy cool refreshments.

Convenience technology such as Bluetooth hands-free phone capability, reversing camera, superior audio with USB connection, smart key entry and push button start are standard across the range. Three-zone climate control air conditioning with independent driver, front passenger and 2nd row seat controls and temperature controls are available across the range.

The Satellite Navigation system that is standard in all models arrives with a SUNA Traffic Avoidance System that can provide alternative route information to keep you moving during peak commuting times (traffic information not available for all regions).

Rear seat passengers in the VX Limited will enjoy superb in-car entertainment with the 9" ceiling mounted adjustable display, Blu-ray player and powerful, 14 speaker 5.1 channel surround sound system. There are even two wireless rear seat headphones that allow for a different audio track to be played to rear seat passengers, meaning front seat passengers can enjoy music or a radio channel while those in the second and third rows can watch a Blu-ray DVD.

Prado is a superior SUV in every possible way.

2.8 Litre Turbo Diesel
4 cylinder DOHC and
Common Rail Direct Injection (D-4D)

GX, VX & VX Limited with a 6-speed Automatic Transmission

4.0 Litre V6 Petrol

6 cylinder quad cam with Dual VVT-i and Electronic Fuel Injection (EFI)

VX with a 6-speed Automatic Transmission

All Prado models have fulltime all-wheel drive. This gives them capability on the smooth roads of an urban precinct, slippery surfaces or rough ground that stops cars in their tracks.

The Prado VX and VX Limited grades arrive with genuine leather seat facings while GX features black seat fabric and door trims. Every Prado seats 7.

Both VX and VX Limited models feature heated driver and front passenger seats.

Every Prado wears the Land Cruiser badge with pride, boasting fully capable full-time all-wheel drive, as well as Hill-start Assist Control (HAC) and Downhill Assist Control (DAC).

USB and AUX connections are conveniently placed alongside the driver and front passenger in the centre console. Passengers in the 2nd row have accessory power outlets of their own while there is a 220V outlet in the luggage area.

Toyota's attention to detail extends to the conveniently located wheel changing kit, stored within a panel in the rear cargo door. The rear door won't close on you, even if you're parked on an unfavourable grade, thanks to this lockable strut, keeping the door open so you can load up easily. A top hinged glass tailgate hatch gives access to the vehicle's load space even in tight spaces where full tailgate opening may be restricted.

Safer and secure

The 5-star ANCAP rated Land Cruiser Prado range is built tough and features comprehensive levels of safety equipment that will give you peace of mind wherever you go.

Every Prado also has 7 airbags fitted, including front airbags for the driver and front passenger seats and a driver's knee airbag. In addition, the driver and front passenger seats have side airbags, and roll sensing curtain shield airbags provide side protection throughout the cabin, including the 3rd row of seats.

Safety and convenience are further enhanced with Dynamic Radar Cruise Control (DRCC). This technology is available in Prado VX Limited and helps to maintain a safe following distance on the open road, slowing the vehicle if necessary and then returning it to your preferred speed when the road ahead clears.

The VX Limited features a sophisticated Pre-Crash Safety system (PCS) which can help reduce collision damage and injury. The PCS system features a radar sensor that detects obstacles in front of the Prado. Using numerous sensors, the pre-crash system computer helps determine in advance whether an unavoidable collision is about to occur. The Pre-Crash Safety system alerts the driver and instantaneously reacts by retracting the front seatbelts and arming the Pre-crash Brake Assist (BA) system to improve braking performance. In an extreme situation the system could even apply the brakes even if you haven't touched the brake pedal.

Land Cruiser Prado has achieved 5-stars in the ANCAP safety test.

Removal of the rear mounted spare wheel has created better overall visibility to make manoeuvrability easier and driving safer. All models also have rear parking sensor guidance and a reversing camera.

The VX and VX Limited's safety features include a Blind Spot Monitor (BSM) that alerts the driver to vehicles in adjacent lanes, indicating their presence with lighted symbols in each exterior mirror. Additionally Rear Cross Traffic Alert (RCTA) uses radar when reversing to detect cross-traffic that may intersect your vehicles pathway. RCTA sounds a warning and also flashes the outer lighted symbols.

All Prado models have Hill-start Assist Control (HAC) that ensures smooth starts uphill and prevents the vehicle from rolling backwards.

Front seat pretensioners instantly tighten the seat belts at the time of a collision to help enhance occupant restraint performance. The force limiter function loosens the seat belts while maintaining the load to help mitigate the impact to the chest regions of the front seat occupants.

Every passenger can feel safe and assured with a cocooning comprehensive airbag package.

All models feature Downhill Assist Control (DAC) to keep decents under control. There's also a centre diff lock switch that ensures all wheels work together.

Prado GX has rear parking sensors while VX and VX Limited have front sensors as well. These make parking a breeze and with the help of a reversing camera display on the 7" touchscreen negotiating urban driveways and parking spaces is made a lot safer.

Be seen sooner. Highly visible Daytime Running Lights (DRL) are standard on all models.

Well-located ISOFIX rear seating fixing points enable child seating to be more easily attached.

PRADO VX IN LIQUID BRONZE

Make Prado your own

With a sure-footed, capable Land Cruiser Prado for every purpose, there's also a Toyota Genuine Accessories component that will help your SUV tackle anything that comes its way. Front, back, interior and exterior; the Prado is covered. Only Toyota Genuine Accessories are designed and manufactured to the same high standard as original parts. Fitting Toyota Genuine Accessories also ensures the integrity of your vehicle, with components tested to exacting standards for New Zealand conditions and backed by a 3 year or 100,000 kilometres* warranty.

*Whichever comes first. Warranty valid from when accessory fitted, at time of new vehicle purchase at your authorised Toyota Dealer.

Bull bar - Alloy. Fabricated from a strong but relatively light aluminium alloy, the polished Forge alloy bull bars combine good looks with excellent protection.

Nudge Bar. Add extra visual appeal with these Nudge Bars made from polished alloy, for an enduring bright finish and ease of maintenance.

Towbar and wiring harness. Tow with confidence with this removable tongue towbar. Rated to 2500kg braked and 750kg unbraked.

Weathershield - Clear acrylic. Lightly tinted to reduce glare, resistant to UV discolouration and are easy to clean.

Driver's side and passenger side sold separately.

Headlight covers - Clear acrylic. Prevent damage to your headlights from road debris with these acrylic Headlight Protectors. They are resistant to cracking and UV and are easy to keep clean. Secured with a stainless steel clin and features.

Bonnet protector - Clear acrylic. Protect the front of your bonnet from road debris with an acrylic bonnet protector. Includes stainless steel clips and hardware to ensure it stays securely attached. Available in clear, or tinted finish.

Floor mats - Black rubber. Custom moulded for a perfect fit, these rubber mats will protect the floor of your Prado from dirt and mud. Simply remove and hose off to keep clean.

The driver's floor mat has 2 clip retainers to ensure it remains securely in place. Rear mats are also available (sold separately).

Cargo Liner. This all-weather cargo liner features the Land Cruiser Prado logo, and will keep your boot protected. It's custom moulded to ensure a secure fit but can be removed and hosed down for easy cleaning.
