HIGHLANDER

HIGHLANDER LIMITED IN CRYSTAL PEARL

HIGHLANDER

Mixing premium and practical in one spacious mid-size package, the updated Highlander is the all-round recreational vehicle for any adventure.

Now with more power and torque, updated convenience features in every grade, comprehensive safety equipment including the Toyota Safety Sense package in the Highlander Limited, and a smooth eight-speed automatic transmission tuned for more economical on-road performance, the Highlander continues to be the SUV to get you where you need to go.

Whether it's family or business taking you further, the Highlander is tailor made for New Zealand drivers and everything a busy lifestyle can throw at it.

More power, better performance

The Highlander features an all-new efficient 3.5-litre V6 engine with direct injection, boasting more power (218kW) and more torque (350Nm) than ever before. That power - perfect for the city commute or the weekend away - is complemented by a new smooth 8-speed automatic transmission.

The Highlander's expanded performance doesn't equate to higher running costs though. In fact, the smart and efficient V6 engine offers better combined fuel consumption than ever (9.1-litres/100km for the Front-Wheel Drive GXL and 9.5-litres/100km for All-Wheel Drive models).

Similarly, combined CO₂ emissions have fallen to 212g/km for the Front-Wheel Drive GXL and 221g/km for All-Wheel Drive models.

In every grade the updated Highlander remains a versatile SUV.

Highlander gains 8% more power with the new 3.5L V6 engine

*Fuel consumption and CO₂ emissions will vary depending on driving conditions/style, vehicle condition and options/accessories fitted. Fuel consumption (combined ADR 81/02).

HIGHLANDER GX IN PREDAWN GREY

HIGHLANDER GXL IN COSMOS BLUE

HIGHLANDER LIMITED IN CRYSTAL PEARL

HIGHLANDER GXL IN RAINFOREST GREEN

HIGHLANDER GX

The Highlander GX is equipped with a feature-set that makes it a compelling entry point into the refreshed Highlander range.

The refreshed Highlander GX arrives with stylish 18" machined alloy wheels, halogen headlights paired with LED Daytime Running Lights and LED tail lights. A new, more masculine grille design completes the refreshed look.

Every Highlander features comfortable seating for seven and a 2000kg braked towing capacity, giving you extra practicality for those weekend adventures out of town.

HIGHLANDER GX IN PREDAWN GREY

- 1 The Highlander GX features high quality black fabric seat trim. The centre console box houses a 12V power connection for your convenience on the road
- 2 All Highlander models feature tinted privacy glass in the rear side doors, rear quarter glass and back door
- 3 The five horizontal silver bars on the upper and lower front grilles tie the new front end treatment together
- 4 A reversing camera with static guidelines and rear parking sensors add extra levels of both convenience and safety
- 5 The new 3.5L V6 engine teams up with an 8-speed automatic transmission with sequential sport mode
- 6 Like all Highlander models, the GX features easy access to the standard 3rd row of seats
- 7 With 2nd and 3rd rows folded there is 1872L of luggage space

HIGHLANDER GXL

The Highlander GXL provides for even more flexibility by being available in both Front-Wheel Drive and All-Wheel Drive formats. Like every Highlander, the GXL features intuitive Bluetooth audio streaming and phone pairing capability for safe, hands-free calling – augmented by steering wheel-mounted controls – along with Voice Recognition.

The GXL features an all-new 18" alloy wheel design matched with roof rails for a sportier profile. The list of standard equipment extends to include a powered back door, 12-way power-adjustable driver's seat, high quality leather accented upholstery paired with a leather steering wheel and shift knob, front seat heaters and the convenience of integrated satellite navigation featuring SUNA Traffic Channel information, giving you updates on traffic* in real-time.

HIGHLANDER GXL IN RAINFOREST GREEN

- 1 Both Front-Wheel Drive and All-Wheel Drive GXL models feature a sophisticated 8-speed automatic transmission with power mode
- 2 Highlander GXL has leather accented seating. Driver and front passenger seats are heated for cool weather comfort
- 3 The Highlander GXL boasts a powered back door with separate glass hatch for extra convenience
- 4 A large 8" audio display screen provides you with all the information you need on the go and at a glance
- 5 2nd row passengers can tailor the position of their seats to maximise space and comfort
- 6 SUNA Traffic*, incorporated with the Highlander GXL's satellite navigation system, allows you to plan your commute more intelligently by offering alternative route information to get you around hazards or congestion
- 7 The Highlander GXL is started with a gentle push of the power button

- 8 All models have 2nd and 3rd row overhead vents to help maintain cabin comfort in all seasons

* Traffic information only available in some regions

HIGHLANDER LIMITED

The Highlander Limited offers a truly premium level of specification.

A chrome detailed grille and chrome rear reflector surround sets the Limited apart, as do its unique 19" two-tone machined alloy wheels.

Inside the spacious cabin, the Limited is differentiated by more luxurious features, including a tilt and slide sunroof, powered driver and front passenger seats with heaters and ventilation, an auto-dimming rear view mirror, a rear-seat entertainment screen and a Panoramic View Monitor.

Toyota Safety Sense is featured for the first time in Highlander Limited. This system incorporates a number of safety technologies including Toyota's Pre-Crash Safety system (PCS), Dynamic Radar Cruise Control (DRCC), Automatic High Beam (AHB) and Lane Departure Alert (LDA) with steering assist and vehicle sway warning system.

Additional safety features include Blind Spot Monitoring (BSM) and Rear Cross Traffic Alert (RCTA) which gives the driver an audible warning if a vehicle is approaching from the left or right during reversing manoeuvres. The Highlander Limited also adds to its rear parking assist sensors with front parking assist sensors.

HIGHLANDER LIMITED IN CRYSTAL PEARL

- 1 Updated taillight design and the unique rear bumper design adds sophisticated styling to Highlander Limited
- 2 The driver's seat has 12-way power adjustments and the front passenger seat has 4-way power adjustment
- 3 Both front seats have heating and cooling for year round comfort
- 4 Unique two-tone machined 19" alloy wheels add to the Highlander Limited's premium exterior styling
- 5 Silver woodgrain style surface ornamentation and subtle blue strip lights on the console shelf and doors adds a touch of luxury to the Highlander Limited's cabin
- 6 The Panoramic View Monitor gives the driver a clear view of the Highlander Limited's immediate surroundings, including a virtual bird's eye view of the vehicle
- 7 The tinted glass sunroof has power tilt and slide functions so you can enjoy the sky above whatever time of day you travel

- 8 The Highlander Limited features a rear entertainment system that is both DVD and Blu-ray compatible and includes a high resolution 9" LCD display screen
- 9 The centre console features a utility shelf for phones and other devices, with a convenient through-hole to keep charge and connection cables arranged tidily

Safe and Secure

You can rest assured that the entire Highlander range offers a comprehensive suite of safety features.

HIGHLANDER GX IN RAINFOREST GREEN

All Highlanders have a wealth of safety features including Vehicle Stability Control (VSC) with co-operative control and Electric Power Steering (EPS). This assists the driver by coordinating the vehicles brake control and electronic power steering systems when a loss of control or deviation from the intended path is detected. Traction control (TRC), Hill-start Assist Control (HAC) and a reversing camera also come standard in the Highlander range. In addition, All-Wheel Drive models feature Downhill Assist Control (DAC) which improves direction control by regulating the vehicle speed for the driver when negotiating steep or slippery descents.

All Highlander models feature a reversing camera to ensure you can see behind you before you start reversing and four rear parking sensors.

The Highlander Limited also features an exclusive Toyota Safety Sense package incorporating a number of safety technologies for extra peace of mind, including Toyota's Pre-Crash Safety system (PCS), Dynamic Radar Cruise Control (DRCC), Automatic High Beam (AHB) and Lane Departure Alert (LDA) with steering assist and sway warning functions. Blind Spot Monitoring (BSM), Rear Cross Traffic Alert (RCTA) and two front parking sensors complete the extensive safety features for Highlander Limited.

Every Highlander also has seven airbags fitted, including front airbags for the driver and front passenger seats, along with a knee airbag for the driver. In addition, the driver and front passenger seats have side airbags, and curtain shield airbags provide side protection throughout the cabin, including the third row of seats.

Highlander's towing ability is enhanced with Trailer Sway Control (TSC). If trailer sway is detected, the system controls the brakes as well as the engine power, reducing trailer sway more quickly than by simply decelerating the vehicle.

With all this safety technology onboard, it's no wonder the Highlander achieved a 5-star ANCAP safety rating.

Safety isn't just a priority for the Highlander. The 5-Star ANCAP safety rating is testament to its renowned Toyota build quality.

Electric Power Steering (EPS) is vehicle speed sensitive so low speed manoeuvres require minimal effort while at highway speeds less assistance is provided. The turning circle is 12.6m

12.6m

- 1 Negotiating difficult descents in AWD models is managed by Downhill Assist Control (DAC). Other safety features include Hill-Start Assist Control (HAC), Vehicle Stability Control (VSC) and Traction Control (TRC)
- 2 Highlander Limited has a Blind Spot Monitor (BSM) that alerts when approaching traffic is nearby but hidden from view. An added feature is Rear Cross Traffic Alert (RCTA) that warns of approaching vehicles when reversing
- 3 All models feature a reversing camera. GX and GXL models have static guidelines. Limited (shown here) has moving guidelines and Panoramic View Monitor
- 4 Toyota Safety Sense brings comprehensive safety systems to the Highlander Limited

Make Highlander your own

With a Highlander available for every lifestyle, there's also a Toyota Genuine Accessories component that will help your SUV reflect your personality. Front, back, interior and exterior; the Highlander is covered.

HIGHLANDER GX IN CRYSTAL PEARL SHOWN FITTED WITH: 20" ALLOY WHEELS, NUDGE BAR, HEADLIGHT PROTECTORS, BONNET PROTECTOR, WEATHERSHIELDS, SIDE STEPS

Only Toyota Genuine Accessories are designed and manufactured to the same high standard as original parts. Fitting Genuine Toyota Accessories also ensures the integrity of your vehicle, with components tested to exacting standards for New Zealand conditions and backed by a 3 year or 100,000 kilometres* warranty.

*Whichever comes first. Warranty valid from when accessory fitted, at time of new vehicle purchase at your authorised Toyota Dealer.

Bonnet Protector. This acrylic bonnet protector is custom-shaped to protect the bonnet from stone chips, insects and paint damage. Resistant to UV discolouration.

Carpet Floor Mats. Protect the floor area of your Highlander from daily wear and tear with tailored carpet floor mats. The driver's side floor mat features two retaining clips to ensure it stays securely in place.

Towbar and wiring harness. This removable tongue tow bar and accessories allow you to tow a maximum braked load of 2000kg and unbraked load of 700kg. Tested to stringent standards you'll have peace of mind no matter what you tow.

Cargo mat. Protect the cargo area of your Highlander with this cargo mat. Custom moulded to ensure a secure fit and made from a highly durable and flexible rubber, it manages dirt with ease. Allows for use of the rear seats. Easily washed.

Nudge Bar. Integrates with Highlander's bold front design. The Nudge Bar has been subjected to Toyota's rigorous testing whilst the unique bracket system has been developed in tandem with the vehicle to ensure correct deployment of airbags to give you peace of mind.

Side steps. Crafted from high grade polished stainless steel to add serious style while making entering and exiting your Highlander easier. Complete with anti-slip surfaces for added safety, side steps not only look fantastic, but give you that extra reach to load up your roof racks for a weekend of fun.
